

Mary J Patry

IT EXECUTIVE LEADERSHIP COACH

Accomplished IT management leader Mary Patry engages her unique combination of experience, leadership values, training, and personality in helping her coaching clients create an attainable, sustainable vision of success.

After over 30 years in the IT industry, Mary stepped away from her corporate leadership career to focus on her passion, helping others triumph, personally and professionally. At the heart of Mary's coaching practice is her desire to create a compelling new vision for her clients' success and her commitment to providing leadership in identifying key motivations, create positive solutions, and enable her coaching clients to set *and* achieve goals previously unimagined.

But don't be fooled, when it comes to IT, Mary's expertise is hard-won, founded on decades of commitment, dedication, and strategic growth. Her sterling reputation in the IT industry is founded on her well-known ability to define the strategy, design, and implementation leadership of actionable IT programs focused on increasing IT value and satisfying the needs of business stakeholders.

Beyond the technical skills, however, Mary's empathy, care, and innate ability to listen sets her apart in an increasingly crowded field. By guiding her clients through understanding key motivations and offering the emotional grounding necessary to take on new challenges, Mary helps her clients design a future around the positive core values, priorities, and principles they've identified. Since 2013 she has helped over 35 IT Executives move forward towards their goal.
